ABOUT ME

Web Developer skilled in React.js, Next.js, TypeScript, Node.js, and Express.js. Experienced in building responsive web applications, REST APIs, real-time features, and AI-powered solutions using Gemini. Google Solution Challenge 2026 Global Finalist passionate about web development and AI.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Java, Python
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite, Responsive Design, Component-Based Architecture
- **State Management:** React Hooks (useState, useReducer), Context API
- **Backend & APIs:** Node.js, Express.js, REST API Integration, Socket.IO
- **AI & Cloud:** Gemini API, Google Gen AI SDK, Google Maps API, Vercel / Cloud Deployment
- **Tools & Practices:** Git, GitHub, VS Code, UI/UX Principles, Performance Optimisation

PROJECT

November 2025

KISAN-MITRA — Intelligent Procurement Queue & Slot Orchestration | React.js, Node.js, Express.js, MySQL, Socket.IO, HTML5, CSS3

- Developing a web-based agricultural procurement platform with digital slot booking, token generation and queue-status visibility to improve coordination between farmers and procurement-centre officers.
- Designed a Smart Queue Engine concept using queue length, active counters, processing speed and centre capacity to estimate waiting times and recommend suitable arrival windows.

April 2026

NEXUS – Hospitality Crisis Command Center | TypeScript, HTML, CSS, React v19, Vite v6, Tailwind CSS, Node.js, Express, Socket.io, Google Gen AI SDK

- Built a component-based React and TypeScript frontend using REST APIs and Socket.IO streams to support crisis-monitoring workflows with Google Gen AI integration.
- Designed a responsive dashboard to present hazard zones and localised evacuation routes, managing application state with React Hooks and Context API.

ACHIEVEMENT

June 2026

Top 106 Global Finalist | Solution Challenge 2026: Build with AI

- Global Finalist (Top 106) — Google Solution Challenge 2026: Build with AI
- Selected from 6,700+ prototype submissions and 85,000+ registrations worldwide.

EDUCATION

2023 - 2027
Dr. Babasaheb Ambedkar Technological University

Bachelor of Technology in Computer Science PVPIT, Budhgaon (Sangli)
Relevant Coursework – Database Management Systems, Operating Systems, Machine Learning, Data Structures and Algorithms
GPA: 8.20

2021 - 2023
HSC Board

Higher Secondary Certificate(HSC) Rani Saraswati Kanya Shala and Srimati Mathubai Garware Junior College of Science
Percentage : 77.67%
Focus : Physics, Chemistry, Mathematics and Computer Science
